CLASSIFICATIONS

HOW MUCH PROTECTION WOULD YOU LIKE TO OFFER?

Classic

The heavier, familiar Dolfig PVC quality which you have grown accustomed to.

Medium Duty

Lighter variant of the Classic line. Also suitable for the heavier work. Fits comfortably.

Featherlight

Breathable, very light and waterproof rainwear made from polyurethane (PU).

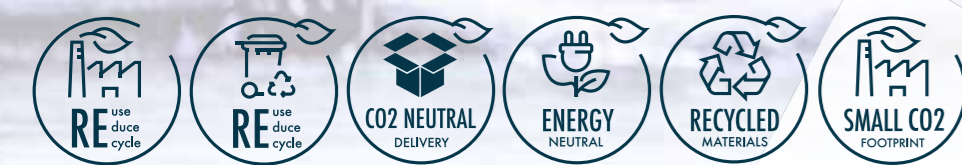

High Visibility

Working safely, whilst being protected against water, wind and dirt at the same time?

PROTECTIVE WEAR

PRODUCTION & DELIVERY WITH
A SMALL CO2-FOOTPRINT

Dolfig clothing will also allow you to offer a responsible choice, as we take the environment into consideration in as many different ways as possible:

CLOTHING: produced using recycled polyester and PVC. Most of our fabric is made from 70% re-used and recycled materials.

WASTE: recycled into new raw materials.

ENERGY NEUTRAL PRODUCTION: Electricity is provided by our own solar panels. Savings via LED lighting and insulation.

BIOGAS USE: The biogas we use is produced from so-called 'renewable' sources, i.e. manure or organic waste.

CLIMATE-NEUTRAL PARCEL DELIVERY: This is an important point of principle for our partner DPD. They closely monitor the greenhouse gases they emit and continuously take action to reduce their carbon footprint.

In the construction and manufacturing industry the standards for clothing are increasing. By working with resources that are certified in Western Europe we are able to meet these standards.

2022-2023

Our sustainable waterproof clothing is commonly worn by farmers and horticulturists, gardeners, fruit growers and other professionals in this industry. If one works in the rain for prolonged periods of time or with a high-pressure hose and wants to stay dry, Dolfin offers a wide variety of products.

FOOD & CLEANING

When preparing and processing food it is important that work clothing protects the wearer from the juices and food residue that are a natural result of this process.

In the cleaning industry light chemical substances are often used, to which the clothing needs to be resistant.

ALSO AVAILABLE IN HEAVY QUALITY 240 GR/M2
